

NEW LED LIGHT KITS!

Heise is launching new LED light kits to dress up your ride. Our new wheel light kits boast sturdy metal frames that are lined on two sides with IP68 rated LEDs that will give the bright glow needed to highlight custom rims. Add in Metra's universal RGB and RGBW underglow LED lighting kits and you will not go unnoticed! The underglow kits are designed to handle rain, snow, and dirt. Rated IP67, these lights are designed for all-terrain on powersports vehicles, boats, cars, and more! Installation video can also be found online at HeiseLED.com
