

**AXSWC-2**  
INTERFACE

**NEW & IMPROVED!**

New updated LED feedback

Updated technology to auto detect radios with adaptive steering wheel controls (learning SWC)

## Steering Wheel Control Data Interface

The AXSWC-2 Steering Wheel Control Data Interface automatically detects the vehicle in which it is installed and the radio connected. Controls are preset for the installer, saving them valuable time. This interface is a universal solution that fits most vehicles, including Chrysler, Dodge, and Jeep® models with CAN Data Systems. Axxess's patented technology deciphers data commands, preventing installers from having to purchase any other interfaces! Designed with upgraded technology, the AXSWC-2 auto-detects radios with adaptive steering wheel controls (learning SWC), allowing compatibility with less common radio brands. Installers also have the option to dual-assign and remap buttons or change controls using the free Axxess updater app for smartphones or tablets.

### INTERFACE COMPONENTS

- AXSWC-2 interface
- AXSWC-2 interface harness
- Female headphone connector with stripped leads

Download Axxess Updater App

Android™

iOS®

### INTERFACE FEATURES

- One Interface does it all - No additional interfaces needed
- Auto-detects type of vehicle and presets the controls
- Auto-detects what radio it's connected to
- Works with all major radio brands
- Micro "B" USB updatable for the most current applications
- Non-volatile memory retains settings even if battery is disconnected or interface is removed from the vehicle
- Can be manually programmed to most vehicles on the market
- Ability to dual assign steering wheel control buttons
- AxxessInterfaces.com has dedicated installation help
- New updated LED feedback
- Updated technology to auto detect radios with adaptive steering wheel controls (learning SWC)
- Works with the Axxess Updater app for manual control, available for smartphones or tablets
