 **SALES** 800-221-0932

TE-JPKT

APPLICATIONS:

- Jeep Wrangler 2007-2018*
*(2018 JK TRIMS ONLY)

* Visit MetraOnline.com for up-to-date vehicle specific applications

PRODUCT OVERVIEW

This bracket solves the visibility challenge when adding an aftermarket backup camera to a Jeep with a rear spare tire. Designed to mount to the factory studs of the spare wheel, the adjustable bracket creates an inconspicuous solution for the camera to be placed at the optimal position for rearview visibility. This kit includes iBeam's Flush Mount Backup Camera with metal housing (TE-FLC). The CMOS camera features a 110 degree viewing angle and 0.6 lux night vision. The camera is small, unobtrusive, and has high quality metal housing, rated IP67.

- Kit includes 1 adjustable bracket
- Bracket mounts to factory studs of spare wheel
- Kit includes TE-FLC flush mount camera
- Camera provides reverse guidelines
- Fits Jeep Wrangler 2007-2018*

*(2018 JK TRIMS ONLY)
