JP-18AMP-BRKT PRODUCT OVERVIEW

This vehicle-specific amp rack is designed to be installed under the front seat of your Jeep to install an aftermarket amplifier. The mounting plate is corrosion-resistant, black powder-coated steel with slots along the outside edge for securing the amplifier wiring. Factory bolts are reused for installation, and complete instructions are included.

Product Specifications:

- Designed for use in aftermarket radio installations using small form-factor amplifiers only
- Includes (1) under-the-seat amp rack*
- Black powder-coated mounting plate
- Cable tie slots for securing wire
- 11.5" L x 7.5" W
- 3-year limited warranty

*2024-Up Wrangler & Gladiator with power seats may require modification to the height of the amp rack

JP-18FUSE-BRKT PRODUCT OVERVIEW

This vehicle-specific fuse holder bracket is designed to secure up to (2) T-Spec VMANL fuse holders when installing an aftermarket amplifier. It can be used with alternate fuse holders and distribution blocks. This bracket is installed under the Jeep's hood near the battery using factory bolts, and step-by-step installation instructions are included.

Product Specifications:

- Fuse bracket accommodates up to (2) T-Spec VMANL fuse holders and can be used with alternate fuse holders and distribution blocks
- Includes (1) black, powder-coated fuse bracket, and mounting hardware
- Installation instructions are included
- Bolts into OE locations
- 3-year limited warranty
