### INTERFACE COMPONENTS

- A2B interface
- Universal harness
- T-harness

This vehicle-specific add-on amplifier interface is designed for use when replacing the factory radio with an aftermarket unit. It allows you to retain the factory Bang & Olufsen® amplifier with an A2B2 input in select Ford F-150 trucks, as well as the factory Sony® amplifier with an A2B2 input in select Ford Fusion vehicles. This interface also preserves the factory balance control, ensuring proper audio functionality after installation.

### INTERFACE FEATURES

- Add-on amplifier retention interface for amplified systems
- Must be used with a Ford radio replacement interface
- Retains the factory Bang & Olufsen® amplifier with A2B2 input
- Retains the factory Sony® amplifier with A2B2 input in select Ford Fusion vehicles
- Maintains factory balance
- Micro “B” USB updatable
