

AXSWC
INTERFACE

Steering Wheel Control Data Interface

Imagine installing a steering wheel control interface and it would automatically know what vehicle it's in, what radio it's hooked up to and preset the controls for you... how much time would that save you? Now imagine that you only need one interface for every vehicle out there, including Chrysler/Dodge/Jeep vehicles with the CAN Data System. Our patented AXSWC interface can decipher the data commands without having to purchase any other interfaces! You also have the option to dual assign and remap buttons or change controls using the free Axxess updater app for smartphones or tablets. This interface is also available with a water-resistant housing as the AXSWC-WR. Both interfaces are available for individual purchase.

INTERFACE COMPONENTS

- AXSWC interface
- AXSWC interface harness
- 12-pin harness with male headphone jack
- Female headphone connector with stripped leads
