Axxess has simplified bypassing your factory amplifier with our AXABH series in taking all of the guesswork out of you having to figure out the wiring and providing a clear wiring chart with clearly labeled wires. The AXABH series is also a great solution if your factory amp has gone bad and you need to install an aftermarket one. Don't forget to check our Vehicle Fit Guide to see if an AXABH harness is available for your vehicle as these products are dependent on the vehicle application.

INTERFACE FEATURES

- Vehicle-specific harness to bypass the factory amplifier
- Saves the installer unnecessary labor and wirety
- 20 gauge wires
- Wire Length: 12"
