OEM-FIT SUB ENCLOSURE FITS JEEP GLADIATOR JT 2020-2025

 SALES 386-257-2956

PRODUCT OVERVIEW

This custom-fit, single 12-inch ported subwoofer enclosure is designed to mount cleanly under the rear cab seat in the 2020-2025 Jeep® Gladiator JT*. Developed by Metra's Master Technicians, this up-firing enclosure delivers a precise OEM-style fit while maximizing performance and space efficiency. If you want powerful, hard-hitting bass in your Jeep®, this vented 12-inch enclosure is an ideal solution.

The enclosure comes preloaded with a VIBE Audio Blackair 12-inch shallow-mount subwoofer featuring a purpose-built motor assembly capable of handling up to 300 watts RMS and 900 watts peak power. Dual 2-ohm voice coils provide flexible wiring options and are easily configured at the enclosure's terminal connector. The enclosure's ported design produces deep, thunderous low-end bass, while the premium MDF construction ensures durability and acoustic accuracy. Every detail is engineered to work seamlessly with the included VIBE subwoofer, delivering exceptional bass performance tailored specifically for the Jeep® Gladiator.

Features:

- Mounts under the rear cab seat
- OEM-style fit
- Exceptional bass performance
- 1-year limited warranty
