

Amplifier Bypass Harness

Fits Select Fiat/Jeep Models 2015-2020

FEATURES

- Vehicle-specific harness to bypass the factory amplifier
- Saves the installer unnecessary labor and wire
- 20 gauge wires
- Wire Length: 12"

Refer to the following pages for the vehicle specific instructions for wiring connections. Wiring connections vary per vehicle. Please note that there are (2) different wiring harnesses included, and the instructions for each harness will be listed.

If it's uncertain whether the vehicle contains a specific speaker or not, test the wires with a tone generator, or check to see if the factory wires are populated on the vehicle side. Alternatively, the wires can be tested for impedance with a multimeter.

APPLICATIONS

Fiat	Jeep
500X.....2015-2017	Renegade2015-2020

Visit AxxessInterfaces.com for more detailed information about the product and up-to-date vehicle specific applications.

TABLE OF CONTENTS

Connections	
Fiat 500X 2015-2017	2
