

SPARE TIRE LIGHT FOR 2021 BRONCO

CELEBRATING
70
YEARS
OF INNOVATION

HE-FDSTL SPARE TIRE LIGHT

PRODUCT OVERVIEW

Heise brings you another first, this time for the 2021 Ford Bronco. The all new LED Spare Tire Light mounts cleanly behind the spare tire and connects with an easy two-wire hook up. The light will not only add style to the Bronco, but will improve awareness for others while braking. Made from black ABS plastic and a smoked polycarbonate lens, this Spare Tire Light is almost unnoticeable when off.

- (85) 1-watt LEDs
- Brake light
- 2-wire hook up
