IBWRD04 DUAL INPUT WIRE REDUCERS 1/0 AWG TO 4 AWG

SALES 386-257-2956

PRODUCT OVERVIEW

This pair of input wire reducers is a convenient solution for aftermarket audio upgrades in any vehicle. They each accept an input of dual 1/0GA wire and output for a single 4GA wire that will fit into an amplifier's terminal. They provide a secure connection featuring hex screws and easy installation with no crimping required.

Features:

- Hex screw design ensures secure connection
- No crimping required
- Silicone covers provide superior electrical insulation
- Machined brass for excellent conductivity and durability
- Corrosion-resistant chrome finish
- Sold as a pair
- Universal applications
