CUSTOM-FIT SEALED SUB ENCLOSURE

FITS JEEP WRANGLER JK 2007-2018/WRANGLER JL 2018-2025

SALES 386-257-2956

PRODUCT OVERVIEW

This custom-fit, 12-inch sealed subwoofer enclosure is designed to mount securely to the tailgate of the 2007-2018 Jeep Wrangler JK and 2018-2025 Jeep Wrangler JL*. Developed with VIBE Audio's Multi-Installation Technology, this enclosure utilizes the tailgate for mounting, saving valuable space in the cargo area. If you want powerful, hard-hitting bass in your Jeep, this 12-inch enclosure is an ideal solution. The enclosure comes preloaded with a VIBE BlackAir 12-inch shallow-mount subwoofer featuring a purpose-built motor assembly capable of handling up to 300 watts RMS and 900 watts peak power. Dual 2-ohm voice coils provide flexible wiring options and are easily configured at the enclosure's terminal connector. The enclosure's sealed design produces deep, thunderous low-end bass, while the premium MDF construction ensures durability and acoustic accuracy. Every detail is engineered to work seamlessly with the included VIBE subwoofer, delivering exceptional bass performance tailored specifically for the Jeep® Wrangler.

Features:

- Mounts directly to the tailgate
- Exceptional bass performance
- 1-year limited warranty
