

GT2097-4 CHERRY SUEDE BLADE TOOL

SALES 386-257-2956

PRODUCT OVERVIEW

This multipurpose installation tool is ideal for use when installing window tint, vinyl wraps, signs, and other soft films. This flexible card-shaped tool contours to surfaces to smooth bumps and bubbles from materials. It has a slip-resistant grip and features hard and soft edges to serve multiple functions for window film, PPF, vinyl signs, and wrap installers.

Features:

- 4" high-flex blade hard card installation tool for window tint, vinyl wrap, PPF, etc.
- Versatile design with both hard edge and suede-covered edge
- Suede edge promotes crease-free shrinking on window film
- Hard edge is rigid enough to lift window sweeps for film installation
- Efficiently expels trapped air and moisture
- Highly flexible with medium slip (softer than our Lemon Suede Blade tool)
- Contours to surfaces
- Perfect for "bumping" the film's edge
- Slip-resistant "parallel bump" grip
- Gently rounded corners to prevent scratches
- 1-year warranty
